MATTINGS, OIL CLOTHS, ETC.,

And anything else you may decide to want. We invite your inspection as we feel we can please you. Come and see us and let us figure on your wants.

**JOHNSON & HILL CO.**  
CARPET DEPARTMENT.

### MEMORIAL DAY.

To be Properly Observed by the  
Veterans and Their Friends  
Next Tuesday.

Decoration day will be properly observed in this city by the members of the local post of the Grand Army of the Republic and their friends, and the services on that day will probably equal anything that has heretofore been held.

The exercises will start in the morning by the forming of a column at the G. A. R. hall at 9:30 o'clock, where the start will be made for the cemetery.

Those in the column will include the members of the Grand Army post, civic societies, school children and all others who are to form in the parade. The column will then march to the cemetery where the usual service will be gone thru. Upon the return to the hall dinner will be served in the G. A. R. rooms by the members of the Woman's Relief Corps, and the public is extended a cordial invitation to partake of this dinner.

At 2:30 in the afternoon the services will open at the opera house. The program will consist of speeches by T. W. Brazner, Prof. Jackson, Rev. Staff, singing by the Congregational church choir, vocal solos by T. A. Taylor, Mrs. Parnell and A. J. Freund.

These services in the opera house are all free and the public is cordially invited to come and take part.

### The Pinery Boys.

Merrill Naves.—The "pinery boys" so called, have always held a distinct position in the industrial world. The "pinery boys" would seem to belong to a dictatorial labor union. The "pinery boys" never went on a strike or left their employer in the lurch. As a working class the "pinery boys" represent the highest type of American working men. Always independent yet the "pinery boys", as we have said, never went on a strike nor ever left their employer in the lurch. The "pinery boys" commanded good wages and fair treatment by meritorious service alone. The real "pinery boys" never needed a boss to see that they performed good work. They needed no goading. They knew their work and were ever ready to render unto their employer what their employer was entitled to.

With the disappearance of the pine forest also disappears the noble working men, the "pinery boys." Once in a while you run across one, like the lone solitary pine here and there,—lone sentinels of the past. Standing on the Lindauer Pulp & Mfg. Co.'s dam the other day the writer had the pleasure to watch three of the old time "pinery boys" perform on the logs. Logs from the Pacific river drive were being sluiced thru the dam. One of the logs was Mike Garrihou, Mike Miskell and Dave Taylor, three as good log drivers as ever "cutted a log," "started a jam," or "shot the rapids" in a lifetime. Their hair is turning gray and their features bear traces of exposure to all kinds of weather, but they are just as agile and just as sure-footed and just as energetic as they ever were. It was delightful to see how they "cutted" and "poked" the logs. They were here and there and everywhere where the logs were liable to stop. They kept them moving; that is log driving.

### Attention Comrades, G. A. R.

All comrades of Wood County Post No. 22, G. A. R. and all old veterans will bear in mind that we will meet at the G. A. R. hall on Sunday morning, May 28th, 1905, at 9:30 a. m. to attend memorial services at the Congregational church at 10:30 a. m. of that day, upon invitation extended to Post and W. R. C. by the Rev. F. Staff. The W. R. C. will bear in mind that we will expect them to meet with the post at G. A. R. hall on that day and hour to attend services with the post in a body.  
C. C. Packard, Post Commander.  
W. H. Getts, Post Adjutant.

### Preparing to Build.

The Grand Rapids Foundry company are preparing to start the work on their new shop on the west side. For some time past they have had a gang of men at work engaged in manufacturing concrete blocks, and they are turning out about one hundred and fifty blocks a day. They are now doing this work near the foundry on the east side, but later on expect to move to the site of the new building where the work will be done. A rotary mixer is being employed in the work, by means of which a great deal of the manual labor connected with the work is done away with. The mixer is now being operated by means of a steam engine, but when the move is made to the west side an electric motor will be employed in the work.

### CIRCUIT COURT.

Not Many Cases Disposed of  
During the Past Week, on Account of Damage Suit.

The session of the circuit court has continued in this city since last week's report, but the only case that has been disposed of is that of Redepting against the town of Rock. This case was started last Thursday and continued in session until Monday, when it went to the jury. Mr. Redepting was driving along one of the highways in the town of Rock, when his wagon wheel went into a rut, and the jar was such that one of the rack spokes was broken, and Mr. Redepting was thrown to the ground, breaking one of his legs in two places. Subsequently when the man recovered from his injuries the limb that had been hurt was somewhat shortened than the other, making him a cripple for life. He asked for \$5,000 from the town, alleging carelessness in not keeping the highways in proper shape. The jury disagreed.

The case of Mogen Schoenmann vs. the Wisconsin Central railway was taken up on Monday afternoon. This case came to Wood county on a change of venue from Marathon county. The plaintiff claims that while in the employ of the company as a section man, a handcar which he was attempting to remove from the track was struck by an approaching train, injuring him, for which he asks for \$50,000. The case is still in progress as we go to press.

### Opportunities at Oacoma, S. D.

The town of Oacoma, Lyman County, South Dakota, is located on the west bank of the Missouri River, opposite Chamberlain. With the completion of the Lyman County extension of the Chicago, Milwaukee & St. Paul railway, Oacoma will become the distributing and shipping point for a populous and productive area larger than the state of Vermont. The townsite is beautiful, well drained, has the advantage of railway and steamboat transportation and is bound to become one of the most important trade centers of South Dakota. About June 1 there will be a sale of town lots offering excellent opportunities for profitable investment. Business men who are seeking good locations for mercantile enterprises will do well to identify themselves with Oacoma. Watch for dates of excursions for the sale of Oacoma town lots.

### Notice to Dog Owners.

State of Wisconsin,  
City of Grand Rapids, ss  
Notice is hereby given that the dog license for the year 1905-1906 will become due and payable at the office of the City Clerk on the first day of June, 1905.

If not paid on or before the fifth day of July 1905 owners of dogs on which license is not paid will be liable to arrest under ordinance No. 23 of the City of Grand Rapids.

Dated at the office of the City Clerk this 20th day of May, 1905.

C. E. Boles, City Clerk.

—Look over the bicycles at Daly's before you make up your mind what you are going to buy.

### A NEW CHURCH.

One More Chance Given the Unconverted to Walk in the Straight Path.

A new church has been organized in this city which goes under the name of the Church of Christ. The officers of the new organization are as follows:

Elders—J. C. Thurman and B. G. Eggert.  
Deacons—Thomas Reding, Robert Ravland, C. M. Renne, Minard Duncan and Charles Packard.

As yet no pastor has been engaged for the congregation, but Rev. Mr. DeVoe, who has been holding evangelistic services here during the past six weeks will remain here until one can be secured.

At the organization of the church forty-five members were enrolled, and twenty-five have been baptized, so that the society starts out under most favorable circumstances, with a promise of becoming one of the strong churches of the city.

During the time that Mr. DeVoe has been holding services here, there have been large gatherings nightly, and many people of the city have evinced a desire to become familiar with a religion which, to this section, is a new one.

The state board of the Christian Church will hold the next annual convention in this city, which will occur some time in September.

A reception was held in the G. A. R. hall last Monday evening for the members and their friends, and there was a large crowd in attendance. No program had been prepared for the occasion, but those present indulged in a social time, while Mr. Shields favored them with a number of selections that were greatly enjoyed by all.

The organization of this church in this city is due largely to Mr. and Mrs. B. G. Eggert. When they came to this city to live they found no church of their faith here, so they applied to the state board for an evangelist, and Messrs. DeVoe and Shields were sent. Their efforts have proven successful goes without saying, and all interested feel well pleased over the result.

### Death of J. D. LaBrecche.

James D. LaBrecche, one of the old settlers of Grand Rapids, died at five o'clock last Friday morning after an illness that lasted only one day. Deceased had been about as usual on Wednesday, but the following morning he was taken sick, and rapidly grew worse in spite of anything that could be done for him, and he died on Friday morning, the cause of his death being paralysis.

Mr. LaBrecche was born in Canada on the 22nd of December, 1831, and has lived in this city since 1852, making him one of the pioneers of this section of the country. He is survived by eight children, they being Mrs. Charles Gouger, Louis LaBrecche, George LaBrecche and Joseph LaBrecche of this city, Mrs. Anton Christman of Stevens Point, Charles LaBrecche of Kendall, Mont., and Ovid of Woodruff.

Mr. LaBrecche was a man who was liked by all who knew him intimately, and his death, which was conducted until the time of his death, was always a place of rendezvous for a number of the older settlers, and it is seldom that a man reaches the age he did and was still able to be at his place of business every day.

The funeral occurred on Monday from the Catholic church, Rev. B. Hugenroth conducting the services, and the remains were laid to rest in Calvary cemetery, a large number of the friends of the deceased attending the last sad rites.

### State University Commencement.

The programme for the fifty-second annual commencement of the University of Wisconsin, just completed, indicates that the occasion of the week will begin on Sunday, June 17, with the baccalaureate address to be given by former President John Bascom, who was to have delivered the baccalaureate address at the Jubilee last year but was prevented by illness from attending. The class day exercises, including the ivy-planting, the class-play, and the pipe of peace ceremony, will be held on Tuesday, Wednesday of commencement week will be given up to the alumni, and on that day will be held the meetings of the Alumni Association, the class reunions, and the alumni dinner. Thursday, June 22, is commencement day, when 425 members of the graduating class will receive the bachelor's degree, 10 graduate students will be awarded the degree of doctor of philosophy, and 24 the master's degrees. The exercises of the week will close with the alumni reception and ball on Thursday evening.

### Payne-Parrell.

Scott Payne and Miss Nettie Parrell were married on Saturday, Justice B. L. Brown officiating. Both the young people are well and favorably known in this community, the bride being the daughter of Mr. and Mrs. Matt Parrell and for several years has been stenographer in the law office of W. E. Wheelan, and a most estimable young lady. The groom is a paper maker employed at the south side mill, and has long lived in this community. Mr. and Mrs. Payne will make their home in this city, where they have a large circle of friends who will wish them a long and happy wedded life.

### Athletics at Appleton.

The athletic field meet held at Appleton on Saturday was won by Fond du Lac with a total of 40 points. Wausau got second place with 25 points in their favor. The following is the standing of the different towns that competed.

Fond du Lac..... 40  
Wausau..... 25  
East Green Bay..... 15  
Kaukauna..... 10  
Sturgeon Bay..... 5  
Shoshong..... 5  
Appleton..... 5  
Seymour..... 5  
West Green Bay..... 5  
Stevens Point..... 5  
Grand Rapids..... 5

The two points of Grand Rapids were made by McDonald and Nantz. McDonald coming in third in the 100 yard dash and Nantz third in the 100 yard dash.

Dunn of Fond du Lac was the star of the day, he making three hits and the relay. Twelve hundred persons attended the games, which were the most successful in the history of the association.

### Annual Exhibit.

Manual Training Drawing Sewing, Howe Building, May 20-21.

The annual exhibit of drawing, manual training and sewing will be held in the Howe building and will be open to the public from 12:30 to 5:00 p. m. every week day from Saturday, May 20, to Saturday, May 27, inclusive. It will also be open from 9:00 to 12:00 m. on Saturdays.

### Drawing and Manual Training.

This exhibit illustrates the work in Drawing and in Manual Training from the Kindergarten to the High School, inclusive. The work in Drawing and in Manual Training goes hand in hand, from the designing and making of the furnishings of doll houses in the first grade to the working drawings and finished work of the Manual Training department. One who visits the exhibit can readily see the working out of the principles in this department. Samples of both the work and from work are on exhibition.

### Sewing.

The work in Sewing is carried on from the third to the eighth grade inclusive. Samples of the work of each grade are exhibited.

This work means much to the welfare of the boys and girls of this city. It is of the utmost importance for the welfare of the schools and the city that citizens understand what is being done along these lines. Everyone is earnestly invited to attend the exhibit. Those who are desirous of securing samples of the different articles made in these departments will have an opportunity to do so for the price of the material used.

### State an Abstract Book.

R. H. Butterfield of Stevens Point was arrested on Monday, charged with having burglarized the office of J. R. McDonald on the 14th of May. At that time an abstract book valued at \$2,000 was taken from the office during the noon hour, and later two men of rather a shady character were arrested for the theft. After their arrest it seems that they claimed that Butterfield had paid them to commit the theft, when he was arrested also. Butterfield is one of the principal abstract men of Stevens Point, and his arrest on the charge as stated above, caused great surprise among his friends and acquaintances.

On Tuesday the three men, Butterfield, Roe and Young, were given an examination and were held in \$1,000 bail to the circuit court. At the preliminary examination Roe and Young testified that they had been hired by Butterfield to steal the book, and that he was to pay them \$200 for the deed. Thomas Young is a resident of Grand Rapids, and was sent to the reform school at one time because he would not work. Roe has served four terms in Wausau for burglary, so that the experience is nothing new for him.

### Advertised Letters.

Ladies: Pray Mrs. A. B. Winkler Mrs. F. J. Gentlemen: Casper Jos. L., Cook A. L., Hammann Herman, Meier Albert, Overbeck James, Pretzhold Mr. (theatrical), Raymon Ernst, Wagner Chas., Wojtarski Jos., Klies John, Penperton Morton J.

San Francisco, Cal., July 4 to 7 on account of the American Surgical association.

G. O. Anderson, Local Agent.

### PLANT SUGAR BEETS.

Farmers in This Vicinity Taking Quite an Interest in the Matter of Beet Raising

During an interview with N. L. Nelson, who represents the Sugar Beet Company in this section, a gentleman stated that the farmers of this locality were taking quite an interest in the matter of raising sugar beets and the company was willing to supply the seed to the farmers. The following conditions were stated: The prospective beet raisers must be planted before a certain date, the scheme adopted by the company must supply the seed to the farmers, and then when the beet is raised the farmer is to receive the amount of the profit. The rate of interest on the money advanced for the seed is to be 5 per cent. The following conditions were stated: The farmer must be a resident of the county, and must be a member of the Sugar Beet Company. The company has not yet decided whether it is known as a corporation or not.

The weather having been so cold and during the last two weeks a heavy frost had set in, the farmers were planting, particularly the beet and heavy seed. The weather was so cold that the farmers were not able to put the beets in the ground, but the conditions of the seed will be good. They will come up quickly and will be shallow and make rapid progress, but don't plant at this time, as it is not enough to cover the seed with soil.

Those having planted early, may have been waiting for the frost to put in an appearance and might think that, because they are not up to the seed sown in the ground, that the seed will not do but not put in seed yet, but the beets want warm weather to appear above ground and in case of cold weather it may take all of three weeks before they will get up. When beets planted from now on will come up in five days, if the weather happens to be warm.

In case of a washout of beets, as a sand-form destroys the ground, planting will be advisable. The growers meeting with such a misfortune should notify us at once, when we will send them the seed for replanting free of charge. Planting up to the 10th of June will give excellent results. In fact, beets planted until the 15th of June are a much better crop than other crops planted in June. In case of cold and wet weather, beets planted during the season. Our advice is to plant the beets in the ground or that it should be come too late to plant either. To plant sugar beets instead. There is not the least doubt in our mind, but what the farmers will think of for this advice in the fall.

Wherever the first planted beets put in an appearance begin to advance, immediately and don't wait for all of them to come up. Celebration will fetch the last ones, and you can force the beets to grow by cutting them early and frequently and we will that every one of our growers will make a determined effort this year to raise no less than 5 tons of beets, that is one hundred per acre.

Beets can be grown by anybody who will go into the business, and one stipulation is that the beets must be brought of some point on the Wisconsin Central railway, as the company has discovered that it does not pay to transfer from one road to another. Among those who have planted beets in this section are N. L. Nelson 2 acres, Chas. Bender 1 acre, Anton Krupar 1 acre, Chas. Fald 1 acre, John Jueden 2 acres, Fred Bartz 2 acres, August Walpold 1 acre, Peter Gaden 2 acres, John Hildmann 1 acre, Gato, Nemmann 1 acre, H. Kinnick 1 acre, G. Boudewitz 2 acres, M. Seith 2 acres, Joe White 2 acres, John Plamung 2 acres, August Krupar 1 acre, Chas. Kelp 1 acre.

### Church Notice.

Memorial service will be held in the Congregational church next Tuesday morning. The Wood County Post, G. A. R. and the W. R. C. will attend. The pastor will preach, subject: "Sermons in Stones." Evening services at 7:30. Subject of the address: "Oye word of Virtue."

A nice line of new lace and patent shoes, also line of ladies' slippers cheap for cash at G. Braden's shoe store.
